

BHAWNESH DIPU

Bangalore, Karnataka

bhawnesh.dipu@gmail.com | Mobile +91 7205 772 214

Professional Summary

- Java and Python developer.
- Spring Developer.
- ElasticSearch developer.
- Creating and consuming RESTful APIs
- Frontend Developer

Skills

Programming:

- Java
- Python
- C++
- Bash
- Angular

Familiar Databases:

- Oracle
- MySQL
- ElasticSearch
- RabbitMQ

Tools:

- Github
- Maven
- Vagrant
- Docker
- Spring Integration
- Apache camel

Concepts:

- Data Structure
- Algorithm
- Operating Systems
- MicroServices

PROFILE SUMMARY

- Achievement-driven professional with **4+ years of experience in Application Development**
- Exemplary in translating software requirements into workable programming code and maintaining and developing programs for use in business
- Resourceful in understanding client requirements and translating the same in application features & collaborating with a team of IT professionals to set specifications for new applications
- Expertise in participating in **requirements gathering** for enhancements and creation of high-level as well as detailed-level design documents
- Offered application solutions to the industry by developing Chatbot an application for solving internal queries of bank employees
- In-depth knowledge of programming for diverse operating systems and platforms using development tools
- An effective communicator with strong analytical, interpersonal and problem-solving skills

Professional Experience at Delhivery Pvt Ltd (Aug 2021 – Present)

Backend Developer:

August 2021 – Present

Delhivery Pvt Ltd - WMS (Client: Top e-commerce companies)

- Manage the integration layer of WMS with the client.
- Accept AGN, Orders with integrator
- Send notification to client on different interfaces.

Professional Experience at Aptus Data Labs (June 2017 – September 2019)

Application Developer: August 2017 – September 2019
Chatbot Application (Client - Top Private Bank)

- Developed 'Chatbot' to answer commonly asked questions or queries pertaining to an Application/System for the employees of the Bank.
- The application reduced 40% of the Service Requests and Tickets by solving employee's queries.
- The application is equipped with API for the purpose of integrating with Bank's Mobile applications.
- Chatbot has been launched internally to solve Help Desk and other related queries of Bank employees.

- The application has replaced the old application Nano-Rap and provides more functionality with efficiency when compared.
- The Chatbot application provides a chat interface to solve user queries and if required raise a service request (SR) to the Help-Desk portal without the user to explicitly visit the Help-Desk site.

Hadoop Admin and Development (Client - Top Private Bank) June 2017 - July 2017

- Responsible for monitoring and managing UAT and production Hadoop clusters.
- Data movement activities in and out of hadoop to databases like vertica.

Skills Applied: Hadoop (MapR), Sqoop, Hive, Kafka, Fume, Python

B.Tech Project (June 2013 – March 2017)

Data Viewpoints : July 2016 - January 2017 **A Web based Mathematical Software for Data Analysis**

- Developed 'Data Viewpoints' to do mathematical operations and visualizations using web interface.
- The web based software helps in plotting different plots based on data.
- We can import data from csv, excel and also create in the web page itself.
- There is a handwritten digit recognition using SVM model and MNIST dataset.
- <https://bhawneshdipu.github.io/data-viewpoints/>

Skills Applied: Python, Django, Matplotlib, Pandas, Scikit learn, JQuery.

Twitter Connector July 2016 - January 2017

- A Web based Interface to get user tweets with OAuth 1.0
- Developed 'Twitter Connector' to help connect users and get user tweets.
- <https://github.com/bhawneshdipu/twitter-oauth1.0>

Skills Applied: JAVA, JQuery, OAuth-1.0, Maven, Tomcat.

Education

- B.Tech. (Computer Science & Technology) from National Institute of Science and Technology, Berhampur in 2017; secured 8.28 CGPA
- 12th from Central Hindu Boys School, Varanasi in 2012

- 10th from D.A.V. Public School , Pusauli in 2010

Training and Workshops

- Attended training in Oracle 11g from National Institute of Science and Technology , Berhampur in 2014
- Training on High Performance Computing from National Institute of Science and Technology , Berhampur
- Attended Two days' Workshop on Autonomous Robot, SakRobotix Lab Pvt. Ltd. In 2016
- BEC Preliminary Qualified
- "Spring & Hibernate for Beginners (includes Spring Boot" course with Udemy
- "The Ultimate Hands-On Hadoop - Tame your Big Data!" course with Udemy
- "UiPath - Level 1 Robotic Process Automation" course with Udemy
- "Elasticsearch 6 and Elastic Stack - In Depth and Hands On!" course with Udemy

Academic Achievements

- Received Scholarship for 'Best Coder' while pursuing B.Tech. in 2017
- Worked as Teacher Assistance in NIST during 4th Semester
- Secured All India Rank 70 in Round-2 for CodeVita in 2016. (Team: nist404)
- Attained Runner up position in CodeRush (Overnight Coding Contest) in Sankalp, 2015
- Qualified for CodeChef Snackdown in 2015 & 2016 (team: nist_404)
- Facebook Hacker Cup 2015 and Google CodeJam 2016 Round 1 Qualified

Extracurricular Activities

- Campus Ambassador of Hackerrank (online platform for coding) of NIST, Berhampur
- Core Member of NIST Club Excel (Coding Club)
- Member of Nist Student Counselling Services

Personal Details

- Date of Birth: 26th July 1996
- Languages Known: English & Hindi

Date: 30-Aug-2021

Place: Bangalore
